Bush's Whitehouse staff. She is married to Dan Leonard and they have two grown children.

Members of the Cultural Research Center at Arizona Christian University

The Cultural Research Center at Arizona Christian University exists to advance the Kingdom of God by conducting cultural and biblical worldview studies that will provide research and resources to inform and mobilize strategic engagement in cultural transformation. CRC was formed in partnership with Dr. George Barna, the widely published, influential researcher of American culture and worldview, to produce credible research and analysis to show the transformational impact of the biblical worldview on American culture. The Cultural Research Center is a part of Arizona Christian University, whose mission is to transform culture with biblical truth. This is only possible when future Christian leaders are equipped to influence the world with a clear, strong and compelling biblical worldview.
